

December 10, 2021

Dear Valued Patient,

We are excited to share some news. Kalamazoo Gastroenterology Hepatology is joining Ascension Medical Group. Here are a few highlights of what this new relationship means for you and your care:

- **Your doctor isn't changing** – You'll have the same doctor and care team. But your doctor and care team will now be joining a nationwide network of caregivers and specialists who can collaborate and share resources.
- **We'll be in the same location** – You'll still find personalized care close to home, in the same place we've always been.
- **You'll get the same compassionate care** – We believe that compassionate, personalized care starts with listening to understand you so we can provide the care that's right for you. You'll get the same care you've come to expect.
- **We're here to help answer your insurance questions** – We want to make this transition easy for you. Call us at 269-385-9900 for help with insurance questions.

For more information about Ascension Medical Group or Ascension Borgess Hospital and the care we provide, please visit healthcare.ascension.org. And if you have any questions, please call us and we'll be happy to talk to you about these changes.

Ascension is driven by compassion and dedicated to providing personalized care for all. Thank you for trusting us with your health.

Sincerely,

Brij Dewan, MD, Ajaz Turk, MD, Kevin Beyer, DO, Tarun Sharma, MD, Silviu Locovei, MD
